Thrift Bulletin 48-1

Attached are the revised General and Premium Assessment Fee Schedules for the fourth quarter of 1990. These schedules supersede the Assessment rates set forth in TB 48 dated September 6, 1990. TB 48 and its other attachments will remain in effect and TB 48-1 will serve as a supplement.

This is the first assessment based on the new assessment regulation that became effective August 23, 1990. The regulation provides the Director with the flexibility to charge lower assessment rates than those set forth in the regulation. The OTS has lowered its rates from those originally set forth in TB 48 due to reduced costs brought about by streamlining its current operations and implementation of new revenue sources. These lower rates will remain in effect until superseded by a later Thrift Bulletin.

The fourth quarter assessments are based on unconsolidated total assets as reported in the June 1990 Thrift Financial Report. In the future, an association's assessments will be based on its consolidated total assets as reported on subsequent Thrift Financial Reports.
